

# Contact Lens Evaluation & Diagnostic Fitting Agreement

I understand that contact lenses are medical devices that must be fit to my eyes by an optometrist/technician. I understand that there is a professional fee [up to \$85] for an **annual** contact lens evaluation that is based on the type of lens I wear and is in addition to my routine exam fees since there are specific tests performed for contact lens wearers only.

These additional tests are necessary to ensure that my eyes are healthy, that my lenses fit properly, and to ensure I am seeing as well as possible. If I should require or would like to be fit into a different contact lens than I am currently wearing, the professional fee will be charged accordingly for that evaluation process.

The amount of this fee is determined by the complexity of the lens type and specialized knowledge needed to fit the lens.

I also understand that I will receive a complimentary pair of lenses and any additional follow up care needed within the first 3 months of a contact lens fitting (usually 1-3 visits). I am aware that this fee **may** or **may not** be covered or discounted by my insurance.
